In the Specification

Please replace the paragraph beginning on page 16, line 23 with the following amended paragraph:

The converter section <u>308</u> ~~312~~ may comprise any architecture for example but not limited to Nyquist, oversampling, sigma-delta, and/or combinations thereof. As with the digital filter section 312, the converter section 308 may have any form including but not limited to software, hardware, firmware, or any combination thereof. Further, the converter section 308 may be implemented in any form including, but not limited to rules, processes, functions, formulas, equations, etc., or any combination thereof.
